311512	Creamery Butter Manufacturing
311513	Cheese Manufacturing
311514	Dry, Condensed, and Evaporated Dairy Product Manufacturing

Code	Description
331491	Nonferrous Metal (except Copper and Aluminum) Rolling, Drawing, and Extruding
331492	Secondary Smelting, Refining, and Alloying of Nonferrous Metal (except Copper and Aluminum)
331511	Iron Foundries
331512	Steel Investment Foundries
331513	Steel Foundries (except Investment)
331523	Nonferrous Metal Die-Casting Foundries
331524	Aluminum Foundries (except Die-Casting)
331529	Other Nonferrous Metal Foundries (except Die-Casting)
332111	Iron and Steel Forging
332112	Nonferrous Forging
332114	Custom Roll Forming
332117	Powder Metallurgy Part Manufacturing
332119	Metal Crown, Closure, and Other Metal Stamping (except Automotive)
332215	Metal Kitchen Cookware, Utensil, Cutlery, and Flatware (except Precious) Manufacturing
332216	Saw Blade and Handtool Manufacturing
332311	Prefabricated Metal Building and Component Manufacturing
332312	Fabricated Structural Metal Manufacturing
332313	Plate Work Manufacturing
332321	Metal Window and Door Manufacturing
332322	Sheet Metal Work Manufacturing
332323	Ornamental and Architectural Metal Work Manufacturing

311520	Ice Cream and Frozen Dessert Manufacturing	332410	Power Boiler and Heat Exchanger Manufacturing
311611	Animal (except Poultry) Slaughtering	332420	Metal Tank (Heavy Gauge) Manufacturing
311612	Meat Processed from Carcasses	332431	Metal Can Manufacturing
311613	Rendering and Meat Byproduct Processing	332439	Other Metal Container Manufacturing
311615	Poultry Processing	332510	Hardware Manufacturing
311710	Seafood Product Preparation and Packaging	332613	Spring Manufacturing
311811	Retail Bakeries	332618	Other Fabricated Wire Product Manufacturing
311812	Commercial Bakeries	332710	Machine Shops
311813	Frozen Cakes, Pies, and Other Pastries Manufacturing	332721	Precision Turned Product Manufacturing
311821	Cookie and Cracker Manufacturing	332722	Bolt, Nut, Screw, Rivet, and Washer Manufacturing
311824	Dry Pasta, Dough, and Flour Mixes Manufacturing from Purchased Flour	332811	Metal Heat Treating
311830	Tortilla Manufacturing	332812	Metal Coating, Engraving (except Jewelry and Silverware), and Allied Services to Manufacturers
311911	Roasted Nuts and Peanut Butter Manufacturing	332813	Electroplating, Plating, Polishing, Anodizing, and Coloring
311919	Other Snack Food Manufacturing	332911	Industrial Valve Manufacturing
311920	Coffee and Tea Manufacturing	332912	Fluid Power Valve and Hose Fitting Manufacturing
311930	Flavoring Syrup and Concentrate Manufacturing	332913	Plumbing Fixture Fitting and Trim Manufacturing
311941	Mayonnaise, Dressing, and Other Prepared Sauce Manufacturing	332919	Other Metal Valve and Pipe Fitting Manufacturing
311942	Spice and Extract Manufacturing	332991	Ball and Roller Bearing Manufacturing
311991	Perishable Prepared Food Manufacturing	332992	Small Arms Ammunition Manufacturing
311999	All Other Miscellaneous Food Manufacturing	332993	Ammunition (except Small Arms) Manufacturing
312111	Soft Drink Manufacturing	332994	Small Arms, Ordnance, and Ordnance Accessories Manufacturing
312112	Bottled Water Manufacturing	332996	Fabricated Pipe and Pipe Fitting Manufacturing
312113	Ice Manufacturing		
312120	Breweries		

312130	Wineries	332999	All Other Miscellaneous Fabricated Metal Product Manufacturing
312140	Distilleries	333111	Farm Machinery and Equipment Manufacturing
312230	Tobacco Manufacturing	333112	Lawn and Garden Tractor and Home Lawn and Garden Equipment Manufacturing
313110	Fiber, Yarn, and Thread Mills	333120	Construction Machinery Manufacturing
313210	Broadwoven Fabric Mills	333131	Mining Machinery and Equipment Manufacturing
313220	Narrow Fabric Mills and Schiffl Machine Embroidery	333132	Oil and Gas Field Machinery and Equipment Manufacturing
313230	Nonwoven Fabric Mills	333241	Food Product Machinery Manufacturing
313240	Knit Fabric Mills	333242	Semiconductor Machinery Manufacturing
313310	Textile and Fabric Finishing Mills	333243	Sawmill, Woodworking, and Paper Machinery Manufacturing
313320	Fabric Coating Mills	333244	Printing Machinery and Equipment Manufacturing
314110	Carpet and Rug Mills	333249	Other Industrial Machinery Manufacturing
314120	Curtain and Linen Mills	333314	Optical Instrument and Lens Manufacturing
314910	Textile Bag and Canvas Mills	333316	Photographic and Photocopying Equipment Manufacturing
314994	Rope, Cordage, Twine, Tire Cord, and Tire Fabric Mills	333318	Other Commercial and Service Industry Machinery Manufacturing
314999	All Other Miscellaneous Textile Product Mills	333413	Industrial and Commercial Fan and Blower and Air Purification Equipment Manufacturing
315110	Hosiery and Sock Mills	333414	Heating Equipment (except Warm Air Furnaces) Manufacturing
315190	Other Apparel Knitting Mills	333415	Air-Conditioning and Warm Air Heating Equipment and Commercial and Industrial Refrigeration Equipment Manufacturing
315210	Cut and Sew Apparel Contractors	333511	Industrial Mold Manufacturing
315220	Men's and Boys' Cut and Sew Apparel Manufacturing	333514	Special Die and Tool, Die Set, Jig, and Fixture Manufacturing
315240	Women's, Girls', and Infants' Cut and Sew Apparel Manufacturing	333515	Cutting Tool and Machine Tool Accessory Manufacturing
315280	Other Cut and Sew Apparel Manufacturing		
315990	Apparel Accessories and Other Apparel Manufacturing

Job DescriptionThe Large Molecule Research organization at Sanofi (Cambridge, USA) is seeking a Senior Principal Scientist, Lab Head to lead a research group composed of PhD and non-PhD scientists focused on two key activities: (1) generation of novel antibody drugs using in vitro antibody discovery platforms delivering into and enriching a competitive pipeline in Oncology, Immunology & Inflammation, and Rare & Neuroscience; and (2) developing new technologies to advance the discovery and lead optimization of antibodies contributing to our First-in-Class, Best-in-Class portfolio. The successful candidate will be seen as a highly experienced scientific leader with deep expertise in discovering antibodies involving phage-to-yeast libraries coupled with machine learning and other in silico tools. The candidate will lead his/her research teams and collaborate across all therapeutic areas at Sanofi, as well as other Research Platforms (e.g., Nanobody, Translational Sciences, etc.).

ResponsibilitiesLead a team of PhD and non-PhD scientists directly as well as via matrix management to execute on discovering antibodies and or other biologic building blocks to support Sanofi's pipeline of biologic drugs. Provide scientific leadership and technical guidance to build a robust biotherapeutics portfolio, including guidance on discovery campaign screening strategies, triaging across discovery platforms, setting criteria for molecule progression, and management of external/internal partners. Continuously look at opportunities to improve the efficiency and success of antibody discovery workflows. Develop new technologies and platforms to stay at the cutting edge, incorporate new technologies, and support integration of new technical innovations across the global antibody discovery teams. Oversee continuous modernization of lab infrastructure, including establishment of streamlined lab and data workflows, and supporting data management objectives. Support the further development of computational expertise within the team and workflows. Offer scientific leadership and guidance cross-functionally, especially with the Therapeutic Areas, the interplay between understanding the biology of the disease and the molecule platforms. Assist business development in assessing in and out-licensing opportunities. Contribute to patent filings and publications and present research finding to various audiences. Identify opportunities for growth of the group and department into new areas to foster efficiency. Present findings in different forums with clarity and line of sight

Must have qualificationsPh.D. and postdoctoral work in Biochemistry, Immunology, Molecular & Cell Biology or similar fields with 8+ years of experience leading a high performing multidisciplinary antibody drug discovery team. Extensive experience working with all major in vitro antibody discovery and optimization platforms. Recognized scientific leader in the field of antibody discovery with consistent publications in top-tier journals, presentations at key scientific conferences. Exceptional communication skills, innovative mindset and ready to step out of the box for creating and exploring new ideas, engaged and passionate about antibody drug discovery with a zeal to take ownership and accountability. Knowledgeable in computational methods employed during antibody discovery and engineering (e.g., NGS sequence and analysis, computational library design, use of in silico developability prediction methods, etc.). Strong publication history and active networking within the antibody discovery and engineering community. Hands-on experience with high throughput methods employed end-to-end to discover and characterize antibodies. Additional qualifications Experience with and/or interest for artificial intelligence-based discovery of antibodies. Experience in alternative to antibody scaffolds as biologic drugs or as building blocks for multi-specific antibody generation.

Sanofi Inc. and its U.S. affiliates are Equal Opportunity and Affirmative Action employers committed to a culturally diverse workforce. All qualified applicants will receive consideration for employment without regard to race; color; creed; religion; national origin; age; ancestry; nationality; marital, domestic partnership or civil union status; sex, gender, gender identity or expression; affectional or sexual orientation; disability; veteran or military status or liability for military status; domestic violence victim status; atypical cellular or blood trait; genetic information (including the refusal to submit to genetic testing) or any other characteristic protected by law. #GD-SG #LI-GZ

At Sanofi diversity and inclusion is foundational to how we operate and embedded in our Core Values. We recognize to truly tap into the richness diversity brings we must lead with inclusion and have a workplace where those differences can thrive and be leveraged to empower the lives of our colleagues, patients and customers. We respect and celebrate the diversity of our people, their backgrounds and experiences and provide equal opportunity for all.

Quality Control Specialists – Demakes Enterprises in Lynn, MA (Jun 2023 - Active)

Quality Control Specialist for large food manufacturer

Link to Live Job Posting: www.simplyhired.com

Location: Lynn, MA

Therapeutic Recreation Directors – Alkermes in Waltham, MA (Jun 2023 - Active)

Director/Senior Director, Therapeutic Area Clinical Operations Lead

Link to Live Job Posting: www.disabledperson.com

Location: Waltham, MA

O*NET: 11-9111.00

Company: Alkermes

Job Title: Therapeutic Recreation Directors

Director/Senior Director, Therapeutic Area Clinical Operations Lead at Alkermes, Inc. Director/Senior Director, Therapeutic Area Clinical Operations Lead at Alkermes, Inc. in Waltham, Massachusetts Posted in Research 1 day ago.

Type:

Full Time

Job Description:

On Nov. 2, 2022, Alkermes plc announced its intention to explore separation of its oncology assets, including nemvaleukin alfa, IL-12 and IL-18. Alkermes plc intends to create a new, publicly-traded company to develop and commercialize such oncology assets. Referred to herein as "Mural Oncology." Alkermes, Inc., a subsidiary of Alkermes plc, is recruiting the position of Clinical Operations for Mural Oncology in advance of its establishment as a publicly-traded company on The Nasdaq Stock Market. As Director/Senior Director, Therapeutic Area Clinical Operations Lead, Oncology you will be responsible for the effective leadership, strategic planning, and oversight of Alkermes Oncology assets in Clinical Trial Management ensuring the operational execution of a portfolio of clinical development studies through: Global Operational Strategy and Planning Clinical Study Execution and Oversight Cross functional Leadership to ensure deliverables met Delivery of reliable, timely and high-quality data Managing a team of Clinical Operation Leaders, Clinical trial managers and Clinical Trial Associates In this role you will work with the SVP of Clinical Development Operations and the clinical development operational teams to direct clinical operational activities and decisions including quality, timelines, and costs related to the conduct of clinical research studies in accordance with applicable regulations, ICH/GCP guidelines and company Standard Operating Procedures. This role will be responsible to lead and manage the CTM team and interface with senior leadership in cross-functional groups, oversee external vendors, collaborate with partners and clinical study personnel.

RESPONSIBILITIES

Responsible and accountable for the successful operational delivery of one or more studies in the Oncology therapeutic area within the Clinical development plan Responsible for directing clinical operations activities and decisions (quality, cost, timelines) related to conduct of studies Define global operational strategy and planning and ensuring adequate resource support for program Ensures delivery of quality deliverables whilst ensuring consistency of process and approaches Responsible for resource forecasting and resource allocation for the clinical studies Responsible to oversee and manage CRO partnership and delivery of outsourced services Responsible to ensure that CTM staff provide an appropriate and documented level of oversight to clinical sites and CROs Responsible for analysis of Key Performance Indicators (KPI), operational metrics, study reporting of performance and ensuring execution against action plans and study plan (e.g., identified risk management plan) etc. Build internal and external stakeholder relationships to help drive successful study execution and strategy Define innovation needs and introduce industry best practices to enable better execution Interfaces with senior management to report on milestones and performance metrics and high-risk issues Ensures study teams are collaborating on inspection readiness and liaise with Quality to manage inspections

QUALIFICATIONS

MS with a minimum of 10 years or BS with a minimum of 15 years of experience (Director) or MS with a minimum of 15 years or BS with a minimum of 20 years of experience (Senior Director) in a pharmaceutical industry or other clinical research setting with clinical trials Experience in Oncology therapeutic area preferred Demonstrated experience in KPI management, contract negotiations, clinical business financial models Ability to effectively establish priorities and develop objectives, goals and action plans to meet or exceed expectations within a fast-paced matrixed environment Excellent verbal/written communication skills and ability to influence at all levels across functions and build effective relationships Strong leadership skills with a passion for people development and an ability to prioritize and provide clear direction to team members in a highly dynamic environment Strong continuous improvement and change management skills Strong understanding of regulations and GCP requirements for drug development, advanced knowledge of clinical operations and industry standards, and advanced skills partnering with CROs and other third-party vendors Experience working on Phase I-IV studies #LI-MB1PDN-99314b70-60f7-4b61-a8cc-85108294ca80

R D Engineering Battery Co-op (July-Dec 2023)

IONIC MATERIALS INC

Woburn, MA Job Details Internship Estimated:

\$42.4K - \$53.7K a year 2 hours ago Qualifications Chemical Engineering Laboratory experience Microsoft Office Organizational skills Chemistry Computer skills Communication skills

Full Job Description SUMMARY:

The R D Engineering Battery Co-op will work with the Ionic Materials Battery team focused on developing solid-state polymer electrolytes for lithium-ion energy storage across one or more sub-projects. The role involves hands on work in the lab as well as data analysis and communication of results. This may include preparing polymer-based battery materials, component characterization, rheological evaluation, and other experiments as required to support the project. The R D Engineering Battery Co-op should be pursuing a degree in chemistry, chemical engineering, materials science, or a similarly related field. This program will run from July 2023 through December 2023.

QUALIFICATIONS

Currently pursuing a degree in chemistry, chemical engineering, materials science, or a similarly related field Demonstrated strong academic track record. Experience working in a lab setting. Ability to follow experimental procedures and carefully document results. Good computer skills (Microsoft Office Suite) Solid communication and organizational skills Experience with polymer synthesis, battery materials, or electrochemistry, preferred.

ROLES AND RESPONSIBILITIES

Preparation of polymers and polymer-based battery materials Analytical characterization of battery materials Rheological evaluation of battery materials Analysis of experimental data and communication of results to staff scientists and engineers. Follow all safety protocols while at work in a laboratory setting. Taking part in continuous improvement ideas Ability to work in a glove box and dry room. Follow, maintain, and improve SOPs in a laboratory setting.

WORK ENVIRONMENT & PHYSICAL REQUIREMENTS

Work in a dry room up to several hours per day Intermittent use of glove box Work with hazardous chemicals while wearing proper PPE and using engineering controls. Mixture of standing and sitting when working at lab benches, fume hoods, and operating equipment.
